

Easy renovating: Fresh style for your bathroom

HÜPPE EasyStyle wall covering

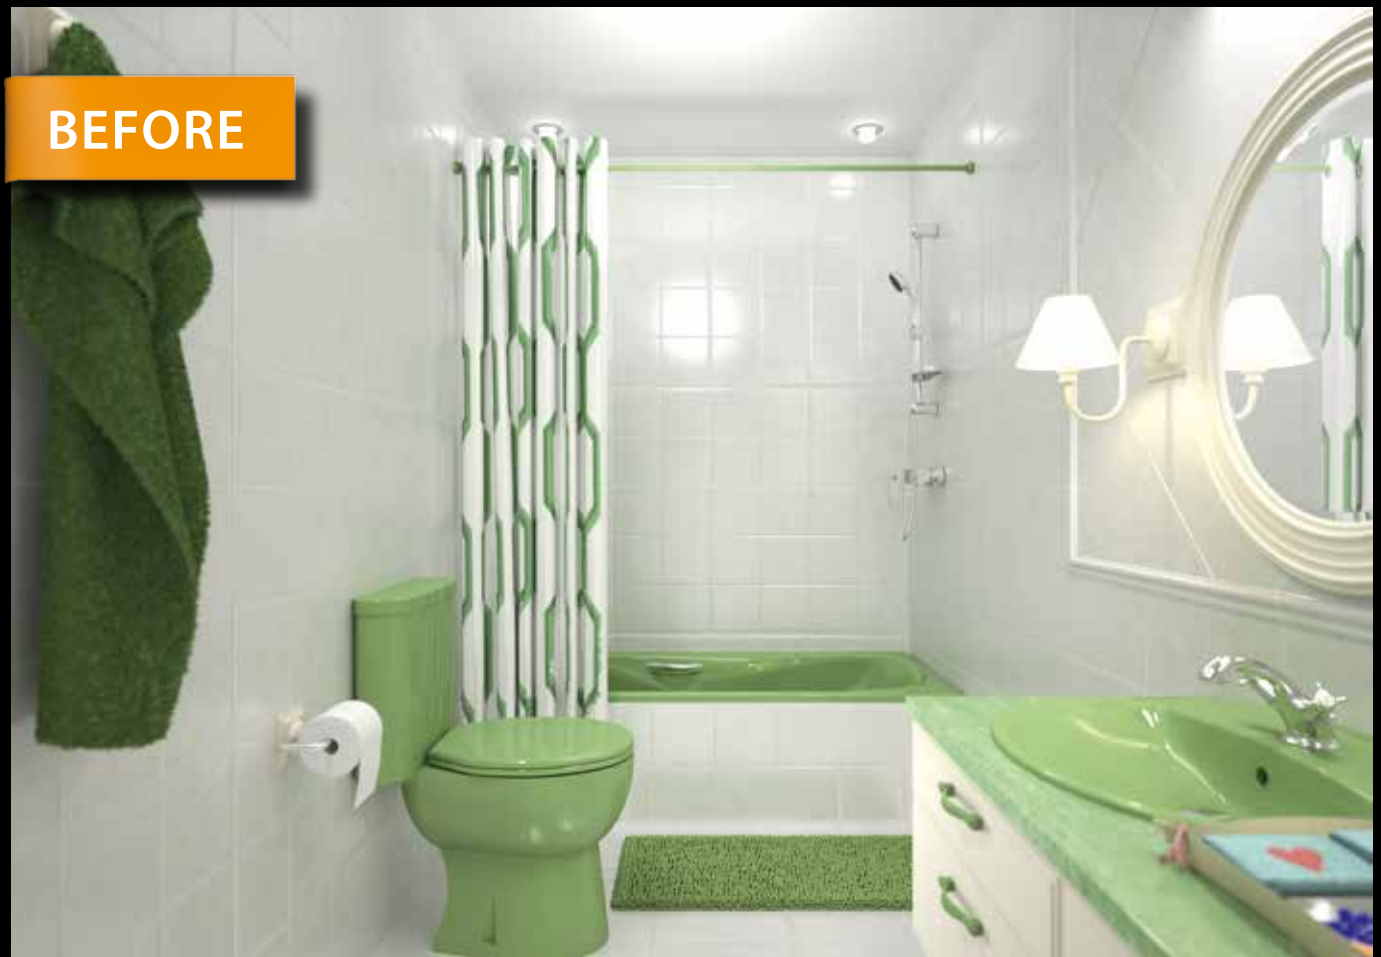

HÜPPE EasyStyle wall covering

Would you like to re-style your bathroom and replace the bathtub with a floor-level entry shower enclosure but are still shying away from a complete renovation? Then HÜPPE EasyStyle is absolutely the right solution for you.

HÜPPE EasyStyle wall covering gives your bathroom a new style both easily and quickly – to the exclusion of any dirt, dust and noise. The wall covering is easily adhered onto the tiles and walls with silicone and adhesive strips or alternatively with a bonding adhesive.

The 3mm thick aluminium composite boards measuring 1000x2550mm are cut to size on the spot and joint-to-joint bonded. Your shower is then practically jointless. As an option, thin aluminium profiles can be used to fit the wall covering.

HÜPPE EasyStyle wall covering is available in four different decors. If you like warm colours and a rustic wood-type appearance, then opt for one of the two wood decors. Perhaps you prefer, however, the cool puritan look? Then our concrete or stone decor is the right one for you. The special surface finish with a UV paint coat gives that genuine feel to all the decors – no chance at all for any dirt or limescale to be deposited on them. A soft cloth and a gentle cleaner, such as HÜPPE Top Plus, is all you need for cleaning.

Four trend-setting decors to choose from:

HÜPPE EasyStyle – Impressive in design and function

- 3 mm thick aluminium composite boards with one-sided, digital board direct printing
- Surface finish with a UV paint coat
- Wear-resistant, colour-fast, scratch proof and resistant to chemicals
- Jointless and precision fitting thanks to the continuous decor
- Four different decors with that realistic feel are available for selection

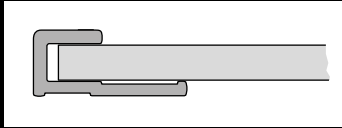

HÜPPE EasyStyle – Really easy to install

- The 3 mm thick aluminium composite boards can be easily adhered onto existing, prepared tiles or walls
- The boards are cut directly on the spot with conventional tools
- Installation with the HÜPPE installation kit (silicone and adhesive strips) or with HÜPPE bonded adhesive for all-over bonding
- Installation possible with aluminium profiles as an option

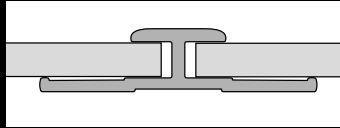

HÜPPE EasyStyle – Really easy to clean

- The surface finish with an UV paint coat largely stops any limescale or dirt deposits forming
- Anything left over can be removed with a soft cloth and a gentle cleaning agent, such as the HÜPPE Top Plus cleaning agent
